

How Did Everything Get Here?

Konke kwenzeka kanjani lapha?

Indalo noma i-bang enkulu?

Konke kwenzeka kanjani? Konke kwavelaphi? Izinto zokuqala umuntu azibonayo ziyizinto eziseduze kwakhe, izwe langaphandle. Lapho ingane iza kulomhlaba, iyabazi kakhulu abantu nezinto ezingaphezukwayo ngayo. Kungokuqwashisa kwangaphandle kwangaphandle kunabantu abangaphandle. Njengoba isikhathi siqhubeka,baqala ukubona ukuthi kunemibuzo ngokuthi zonke lezi zinto zivelaphi. Ingane encane ingaqala ukubuza imibuzo ngemvelaphi futhi leyo mibuzo ilula ekuqaleni. Ingane ingathi, "Izinkanyezi esibhakabhakeni zazivelaphi?" Umbuzo olula uvame ukuthola impendulo elula. Uma umzali ekholwa nguNkulunkulu, umKristu, impendulo kungenzeka ukuthi, "uNkulunkuluwababeka lapho." Uma umzali engakholelwa ukuthi uNkulunkulu ukhona, okholwa ongeyena okholwa, impenduloingabayikho, "kudala lapho kwakukhona njeukuqhuma okukhulu nezinto ezisanda kufakwa esikhaleni."

Njengoba bekhula le mibuzo ibayinkimbinkimbingokwengeziwe,hhayinje "izinkanyezi zafika kanjani lapho" noma "inyangayafika kanjani lapho". Simchazela kanjani imithala eyizigidigidizeminyakayokukhanya? Sikuchaza kanjani ubunzima bomzimba womuntu, ubuchophobomuntu, izinso noma iso? Siyichaza kanjani yonke imithetho nezakhiwo ze-physics ebambe zonke lezi zinto ndawonye? Konke kwavelaphi? Imibuzo eyinkimbinkimbingokwengeziwe ifuna izimpenduloeziyinkimbinkimbi futhi ezinengqondo. Sifuna izimpendulo ezenziwe ngokunengqondo ezizomelana nemibuzo nokuphenya. Kulungile futhi ukuthi kufanele sibuze ngemvelaphi, futhi sifuna impenduloeqondile ngayoyonkeimininingwaneeyaziwayo futhi enengqondo ebusweni bokubuzwayi-US nakwabagxeki. Kuyinhlamba ebuhlakani bethu ukwamukela impendulookungelona iqiniso noma lokho kumiswe kabi.

Siqala ukubona ukuthi umthombo wayo konke okuwukuwukukhona, umthombo ongaphezulu kwemvelo, umthombo ongamandla amakhulu nangobuhlakani nomthombo onokuziphatha kanye nokuziphatha okuhle. Ngencazelo leyo mthombo iqanjwe uNkulunkulu. Nakhu okushiwo uPawulu kwabaseRoma 1:20, "ngoba kusukela ekudalweni komhlaba, izimfanelo zikaNkulunkulu ezingabonakali, amandla akhe aphakade kanye nemvelo yaphezulu ziye zabonakala kahle, kuqondwe ngokwenziwe kwalezabalisa."

UPawulu wayeqinisile. Uma ungakwazi ukubheka nxazonke futhi ubone okwenziwe futhi uqaphele ukuthi ubufakazi obukhulu obukhona lapho ngenxayalolo lwasesimweni esinamandla, esinamandla, sonke esihlakaniphile, uNkulunkulu ongakufakazela kuwe?

Konke kwavelaphi? Konke kwaqhamuka kuNkulunkulu uSomandla wezulu nomhlaba, owasithanda futhi wasidalela nathi konke esikubonayo.

Umthethowemvelo noma amandla angaphezu kwawemvelo?

Lapho ebuzwa umbuzo ngemvelaphi, ukuqonda komKristu ukuthi lo mhlaba bekufanele ube nesiqalo esingaphezu kwawemvelo. Ukuqala kokuqalakeBhayibheli, iZwi likaNkulunkulu, lithi ekuqaleni, uNkulunkuluwadala amazulu nomhlaba. " (UGenesisi 1) Leyo nto efanayo iqinisekiswa kaningi embhalweni. "Uzihlanza ngokukhanya njengokugqoka kwengubo, welula amazulu njengetende, wenza amafu amakamelo akhe angenhla emaphepheni aphezulu. Wenza izithunywa zayo, amalangabi omlilo wakhe." Wabeka umhlaba esisekelweni sawo. " (IHu. 104) Ngubani owadala konke okukhona? UNkulunkulu wakwenza - uNkulunkulu uYise, indodana nomoya ongcwele.

Futhi, KwabaseKolose 1:16, 'ngoba zonke izinto zadalwa, izinto ezulwini nasemhlabeni, zibonakale futhi zingabonakali, noma izikhulu, zonke izinto zadalwa kuye kuye, zonke izinto zibambe. " Lezo yizimpendulo zomKristu. Konke kwenzeka kanjani lapha? Kwakukhona amandla angaphezu kwawemvelo.

Kepha kulabo ababebambelela esibonelweni sokuthi konke kwavela ngamabutho emvelo, bazithola sesimweni esingasazi.

Kunezinto ezimbili eziyisisekelo kule ndawo yonke. Kunendaba futhi kukhona amandla. Inkinga ukuthi noma ngabe akunandaba noma amandla nawo anawo noma yimaphi amandla okudala. Indaba ayidali enye into. Ucezu lokhuni aludali ngokwemvelo olunye ukhuni. Into namandla asetshenziswa njalo. Kukangaki uzwe ososayensi basitshela ukuthi le ndawo yakithi yehla? Sitshelwa ukuthi ilanga lethu, okuyinkanyezi eMilky Way Galaxy, imayelana nobudala obuphakathi. Kucatshangelwe, iminyaka eyizigidi

eziyinkulungwane kusuka manje ilanga lethu lizocina lisebenzise wonke amandla alo. Kumiswa phansi. Uma umkhathi wethu wakhiwa ngendabanemandla, kwavelaphi izinto? Ngomthethowemvelo, abazenzelanga. Bavelaphi? Ngomthethowezemvelo, bahlehla phansi futhi bazosetshenziswa. Ngubani owadala isitolo esikhulu samandla endaweniyoqala? Isayensiyemvelo ayazi.

Umbonowamanjwesayensi ubamba lokho kuKhanya, noma nini laphokwadalwa, kwaqhamuka ezintweni ezingaphili. Lokho umcabango othokozisayo, akunjalo? Encwadini eshicilelwe kungekudala ibizwa ngokuthi "izingqinamba kanye nokuziphendukelakwemvelo", ithi le nto, "umcabango wokuthi konke impilo kuvela ngaphandle

Into ephilayo kumeleyenziwe ngusosayensiwanamuhla uma ikholelwa lowo mbuzo, 'Iyini impilo?' kungokwesayensiyemvelo. "Iphuzu yilaboabaphakamisa ukuthi alikho yiniimbangela yangaphezu kwemvelo okuvela endabeniyezesayensi yanamuhla, wake wakuzwakala ngokuphilakwesayensi yanamuhla. Ah, kodwa wafika ososayensi abaphawuliwe ngu Igama likaLouis Pasteur. Kungenzeka ukuthi uke wezwa ngaye, waba mkhulu obisini. Pheqangokuhlola okuthile okuqinisekiswa kwesiphetho sokuthi impilo ayinakuvelayini kulomhlaba futhi le ndawo yonke bekulokhu kunjalo?

Isayensi kufanele ilahle ukuze ibambe umbono ongaphenduli. Njengoba sibheka lo mbuzo,

"Konke kwavelaphi?" Lapho incishiswa iyeekukhetheni, kungaba khona okungaphezu kwemvelo

amandla okudala, noma kwakukhona umthethowemvelo. Akunakho ukukhetha okufanele kwenziwe. Kwakufanele kube khona amandla angaphezu kwawemvelo.

Ingabe laphayi-Design noma ingabe laphangengozi?

Cabangangeqiniso lokuthi umhlabawethu ugqweleizigidi zezinto eziphilayo, noma yimuphi wazo owunkimbinkimbi kakhulu futhi ucindezelekile kunanoma iyiphi into eyenziwe ngumuntu. Ngamanye amagama, kufanele ngabe bekukhona ubuhlakani obukhulu obuhambisana nalewo mandla angaphezu kwawemvelo abeka konke lapha. Umzimba wethu wakhiwa ngamakhulu

ezigidi zamaseli. Ubuwazi ukuthi iseli elincane ngalinye linohlelo lukagesioluyinkimbinkimbi ukwedlula uhlelo lwezingcingo lwedolobha labantu abangama-30,000? Akumangazi lokho?

Umbuzo uwukuthi, "Ingabe kukhona into eyenziwe ngumuntu ukuthi sizoba ne-account for ngaphandle komklamo ohlakaniphilenokukhiqizwa?" Cabangangohlelo lwefoni edolobheni

usayizi weNew York City. Cabanga ngawowonke ama-switch, lonke i-wiring eyinkimbinkimbi, isixhumanisi se-satellite up-isixhumanisi. Cabangangakho konke okungena kulokho. Cabanga othile okutshela ukuthi akekho umuntu owaklama lokho. Akekho odonsile noma yiziphi

izithombe, kwakungezona amapulani, futhi akekho owenze leso simo, kodwa kumane

kwenzeka nje. Isiwula esikhulu kunazo zonke emhlabeni ngeke sikukholwe lokho. I-rationality eyisisekelo ithi uma sibona okuthile okuyinkimbinkimbi, sikuthatha ukuklama nobuhlakani.

Njengoba kumnandi ukucabanga ukuthi noma iyiphiidivaysieyenziwe ngumuntu yenziwe

ngaphandle kokwakheka nokukhiqizwa, kangangani kangakanani i-ludicrous ukucatshangelwa ukuthi ayikho into eyakhiwengalezi zinto ezingenziwanga? Ubuchophobomuntu, umzimba

womuntu, izinso - uhlelo olukhulu kakhulu lokuhlunga emhlabeni. Ososayensi abathile babeka ejelelo yakamuvayokuthi ithuba le-molecule elilodwa lamaprotheni liwa ndawonye endaweni engahleliwe - ithuba layolalingu- $1 \times 2.02 \times 10$ akhuphuke emandleni angama-239. Ingabe

ngengozi noma ingabe iklanywe? Ikhulwa liyamukela izindima ezinjengemaHubo 19: 1 Lapho uDavide ebhala, "amazulu amemezela inkazimulo kaNkulunkulu futhi ifemumenti limemezela umsebenziwalowezandla." Kwakunombono ngempela futhi kwakumnandi.

Ngaphezulu kwemvelo noma yemvelo?

Kwakungaphezu kwemvelo. Design noma ingozi? Kwakufanele ngabe kwakhiwe. Kepha kuthiwani ngohlobo lwalowo mdali? Ngithola abantu abaningingokwengeziwe emhlabeni wethu bazimisele ukwamukela iqiniso lokuthi kwakufanele kube khona uMdali, kodwa futhi futhi bacabanga ukuthi uMdaliwawungamandla athile akhona, hhayi uNkulunkulu onamandla. Kulokho kudingeka sibheke umkhathi wethu. Kwesinye isikhathi sibona okuhlukile kuyo, kepha izidalwa ezimuntu ezikhona emhlabeni zinomqondowangaphakathi wokuziphatha. Akumangazi yini ukuthi njengoba udlula impucuko eyayihlale kulomhlaba emakhulwini eminyakalaphokunokunye ukuguquguquka okumangalisayo kwalokho esikushoyo okuhle nalokho esikubiza njengokubi. Uma ubuyela kwabaseGibhithe noma amaNdiya aseMelika noma ama-Inca noma eBabiloni, izimpucuko ezazingenakuxhumana nomunye, futhi ikhodi yazo emthethweni yafanangokumangazayo. Kwakuhlala kungenamthetho ukubulawa kwabantu, bekuhlala kungenamthetho ukuntshontsha, futhi bekuhlale kungokomthetho kuqamba amanga. Kwakukhona izinkambiso zobulili kulolo nalunye lempucuko. Kwakunjalo, kubonakala sengathi, ngaphakathikwezinhliziyi zalabo bantu umuzwa wangaphakathi wokulungilenokungalingile. Okufanayo emhlabeni jikelele. Kungani kungokuthi uphindwengumhlaba wonke njengoHitler noma uSaddam Hussein okubi? Kusho ukuthini okubi ukube besingadalwanganguMdali wokuziphatha? Ububi buzoba ngumuntu othanda njengokungafaninelakho, futhi okuthandayo kungababuninginjengoba kunabantu ebusweni bomhlaba, kepha akunjalo.

Sinikezwa umuzwa wokuziphatha. Umuzwa wokuziphatha akaveli emthonjeni ongewona isimilo. Uma siqhamuka edwaleni, ukungcola, kanye nathi, saluthola kuphi unembeza noma isimilo?

Siqala ukubona ukuthi umthombo wayo konke okuwukuwukhona, umthombo ongamandla angaphezu kwawemvelo, umthombo onamandla amakhulu nokuqonda, nomthombo onokuziphatha kanye nokuziphatha okuhle, lokho kuchazwa kwathiwa uNkulunkulu. Nakhu okushiwo uPawulu kwabaseRoma 1:20, "ngoba kusukela ekudalweni komhlaba, izimfanelo zikaNkulunkulu ezingabonakali, amandla akhe aphakade kanye nemvelo yaphezulu ziye zabonakala kahle, kuqondwe ngokwenziwe kwalezabalisa."

UPawulu wayeqinisile. Uma ungakwazi ukubheka futhi ubone okwenziwe futhi uqaphele ubufakazi obukhulu laphongalobobufakazi obunamandla, obunamandla, bonke uNkulunkulu obuhlakanipheko, yini okungenzeka ukuthi bakufakazile kuwe?

Konke kwavelaphi? KuNkulunkulu uSomandla wezulu nomhlaba, owasithanda futhi wasidalela nathi konke esikubonayo.
